Summery

As an aspiring MERN Stack Developer, I am eager to leverage my academic foundation in computer science and my passion for web development to contribute effectively in building dynamic and responsive web applications. I am seeking opportunities to gain hands-on experience and grow within a collaborative team environment.

Projects

Online Book Store | *PHP, HTML, CSS, JavaScript, Bootstrap, MySQL*   **Github Link**
- Created an administrative dashboard accessible only to authorized users with privileges.
- Implemented functionalities for admins to manage books, categories, and authors efficiently.
- estricted access to book content to registered users only.
- Developed search functionalities allowing users to find books by title, category, or author name.

Task Tracker App | *React.js, Redux, Html, Tailwindcss*   **Github Link**
- The application allow user to add, delete and mark tasks as completed.
- Enable marking tasks as completed, visually distinguishing completed tasks from incomplete ones.
- The application provides a responsive interface, ensuring usability on both desktop and mobile devices.
- Tasks added by the user are saved in local storage, allowing them to persist even when the page is refreshed or the browser is closed.
